CASTE:

A Story of Republican Equality, by Swiney A. Story, Jr. Inconsistance you liftme. 5th pp. Frice \$1.25.

This powerful and slavery novel will awaken the attention of the public to a new phase of the great question of the day. To those who would be repelled by a time awaken the attention of the public to a new phase of the great question of the day. To those who would be repelled by a time a streetly showever true they make as the public state of a streetly showever true they make a streetly showever true they make a streetly showever true they are the public state of the privileged class. The condition of the Southern slave is not the there of the book. It is true the author has written with a purpose, but it does not lie upon the surfase; and the reflective reader will find that its force falls outle as much upon Northern as upon Southern society. The bubbleses do not nivish to give a my hist of the unique plot of this nove; preferring that the thousands of readers should enjoy the pleasure of its surprises for themselves.

MODERN PHIGRIMS:

Shewing the Improvementain Travel, and the Newest Methods of reaching the Celestial City. By George Wood, author of "Peter Schlemidi in America." In 2 vois 12mo. Price \$1 75.

The idea of this work was suggested to the author by the immitable "Celestial Railroad" of Hawthorne; but in the upplication of the idea to the religious societies of modern times, the author is indubted to no one. It is a continuous story of the pilgrimage of some cultivated and plously sipsead people, in which they visit in turn various clies, castles and holeis, representing the leading religious colonisms. But no description can do the work justice. It is full of trenchant saire upon life, manners and opinions; and at the same time it has much of pathos which cannot but awaken sympathy. This work will make a sensation in the religious world. It is proper to and that the author takes the same standpoint with honest John Lines, Sampson & Co.,
